(1) - The Wild West Football League season has already been completed.

NR - No ranking for this team in last week's MLFN Top 50.

(A) - The AZFL, DFL, DSFL, NPSFL and TUFL did not report season statistics to MLFN this week. Standings were reported, but no total season points for or against. Therefore, MLFN has computed rankings taking by using the win/loss records as updated for the current week, but has used scores as of the last reporting. In each case this had the effect of reducing each team's ranking from those leagues who did not report.

MLFN National Rankings Method Explained:

Minor League Football News (MLFN) receives scores, standings and other data from Semi-Pro Football Headquarters each Monday evening.

MLFN uses this data to compile a rankings model which uses a simple average, along with other computed values, to determine a power ranking. Those power rankings are then applied to the respective opponents of each team to determine the strength of the opponent and, accordingly, the strength of the win. So, a winning team will not be rewarded within the rankings by running up a score on a weak opponent.
